AGROMANAGER

A wide-angle photograph of a rural area severely affected by flooding. The water covers almost the entire visible land area, reaching up to and over a simple wire fence with wooden posts. In the background, there are rolling hills covered in dense green forests. A few small buildings with red roofs are visible through the trees. The sky is overcast and grey.

AGROMANAGER

A wide-angle photograph of a flooded landscape. In the foreground, a dark green grassy area is partially submerged by muddy floodwater. A simple wooden fence with vertical posts and horizontal rails extends from the left side of the frame across the water towards the right. The middle ground is dominated by a large body of brownish floodwater. On the far bank, there's a dense cluster of houses and buildings surrounded by lush green trees and bushes. Beyond the houses, rolling green hills or mountains are visible under a heavy, overcast sky.
